 Gurugram, India

SUMMARY

I am seeking to secure a challenging role in the area of Software development and WEB designing to contribute my skills as software. Professional for growth of organization and myself. As a UI developer with **One years of experience**, I have a strong skill set in creating interactive designs and reusable components. Through my experience, I have gained a deep understanding of the React.js.

Proficient in building responsive and user-friendly interfaces using React.js, JavaScript, Bootstrap, CSS, and HTML. Experience writing clean and reusable code for complex web applications using React.js and related libraries.. Designed and developed a web application using React.js, Next.js, and Material UI, resulting in a 30% increase in user engagement. Collaborated with developers to troubleshoot and resolve complex bugs and issues. Experience with performance optimization techniques and tools, such as Chrome **DevTools** and **Lighthouse**

EXPERIENCE

UI Developer

March-2022 - Present

Meraki Serv

- Build reusable components for future use, leveraging Git for version control and RESTful APIs for integration with back-end applications.
- Worked on performance optimization and bug fixing for web applications.
- Collaborated with cross-functional teams to ensure the timely delivery of high-quality software.
